

# Alerte de votre conseiller – États financiers consolidés intermédiaires types 2020

Janvier 2020

## Aperçu

L'équipe IFRS de Grant Thornton International a publié la version 2020 des états financiers consolidés intermédiaires types (*IFRS Example Interim Consolidated Financial Statements*), disponible en anglais seulement, qui a fait l'objet d'une révision et d'une mise à jour visant à illustrer les modifications apportées à IAS 34 *Information financière intermédiaire* (IAS 34) et aux autres IFRS, qui sont en vigueur pour les exercices terminés le 31 décembre 2020.

## États financiers consolidés intermédiaires types – Sommaire

Les états financiers consolidés intermédiaires types illustrent des états intermédiaires résumés pour un semestre comptable ouvert le 1<sup>er</sup> janvier 2020. Les états financiers consolidés intermédiaires types sont basés sur les activités et les résultats de la société Illustrative Corporation et de ses filiales (le « groupe »). Le groupe est une société fictive de services-conseils, d'autres services et de vente au détail qui prépare ses états financiers en IFRS depuis plusieurs années et qui produit des rapports intermédiaires semestriels, conformément à IAS 34 au 30 juin 2020.

Lorsqu'elles appliquent IAS 34, les entités ont le choix de préparer un jeu d'états financiers intermédiaires résumés ou un jeu complet d'états financiers en IFRS. Comme mentionné précédemment, la présente publication illustre un jeu d'états financiers intermédiaires résumés, préparé selon les

exigences d'IAS 34.8. Dans les cas où les entités choisissent de présenter un jeu complet d'états financiers dans leur rapport financier intermédiaire, la forme et le contenu de ces états financiers devront respecter les exigences d'IAS 1 *Présentation des états financiers* relatives à un jeu complet d'états financiers (IAS 34.9).

Il est important de se rappeler que l'objectif de la préparation d'états financiers intermédiaires types est d'illustrer l'une des méthodes possibles de présentation de l'information financière intermédiaire pour une entité concluant des transactions considérées comme typiques de divers secteurs non spécialisés. Les états financiers ci-joints sont présentés à titre illustratif uniquement et ne doivent pas être considérés comme étant exhaustifs.

# Introduction

## IFRS Example Interim Consolidated Financial Statements 2020

The preparation of financial statements in accordance with International Financial Reporting Standards (IFRS) is challenging. Each year, new Standards and amendments are published by the International Accounting Standards Board (IASB) with the potential to significantly impact the presentation of a complete set of financial statements.

The member firms of Grant Thornton International Ltd ('GTIL') have extensive expertise in the application of IFRS. GTIL, through its IFRS Team, develops general guidance that supports its member firms' commitment to high quality, consistent application of IFRS and is therefore pleased to share these insights by publishing 'IFRS Example Interim Consolidated Financial Statements 2020' ('Interim Financial Statements').

The Interim Financial Statements illustrate a six month accounting period beginning on 1 January 2020. They are based on the activities and results of Illustrative Corporation Ltd and its subsidiaries ('the Group') – a fictional consulting, service and retail entity that has been preparing IFRS financial statements for several years. The Group produces half-yearly interim financial reports in accordance with IAS 34 'Interim Financial Reporting' at 30 June 2020.

The Interim Financial Statements have been reviewed and updated to reflect changes in IAS 34 and in other IFRS that are effective for the year ending **31 December 2020**.

### About us

Grant Thornton is one of the world's leading organisations of independent assurance, tax and advisory firms. These firms help dynamic organisations unlock their potential for growth by providing meaningful, forward-looking advice. Proactive teams, led by approachable partners in these firms, use insights, experience and instinct to understand complex issues for privately owned, publicly listed and public sector clients and help them to find solutions. More than 53,000 Grant Thornton people, across 135 countries, are focused on making a difference to clients, colleagues and the communities in which we live and work.

### Condensed set of Interim Financial Statements

An entity complying with IAS 34 has a choice of preparing a condensed set of Interim Financial Statements or a full set of IFRS financial statements. These Interim Financial Statements illustrate a condensed set of Interim Financial Statements based on the requirements of IAS 34.8. Where a full set of financial statements is presented in the interim financial report, the form and content of those financial statements are required to conform to the requirements of IAS 1 for a complete set of financial statements (IAS 34.9).

### Local reporting requirements

The requirements for interim reports vary significantly between jurisdictions. Entities that apply IAS 34 may also be subject to requirements imposed by law or by a stock exchange. Such local requirements usually impose interim reporting deadlines and may require disclosure of specified information. This may be presented either in the financial statements or in an accompanying narrative report, eg financial and other highlights, chairman's statement, operating and financial review and specific qualitative and quantitative disclosures (collectively referred to as 'management commentary').

The IASB's Practice Statement 'Management Commentary – A framework for presentation' provides a broad framework of principles, qualitative characteristics and recommended contents for high quality management commentary. Although the Practice Statement is not mandatory, it may be used by regulators and others to benchmark the quality of the information presented and so its guidance should be considered.

Management commentary and other regulatory requirements are not included in these Interim Financial Statements.

### Using this publication

The form and content of Interim Financial Statements will of course depend on the activities and transactions of the reporting entity in concern. The objective in preparing these Interim Financial Statements is to illustrate one possible approach to interim reporting by an entity engaging in transactions that are 'typical' across a range of non-specialist sectors. However, as with any example, this illustration does not envisage every possible transaction and therefore cannot be regarded as comprehensive. For example, IAS 34 requires that the Interim Financial Statements should explain significant events and transactions that have occurred in the interim period. The required disclosures will therefore depend on these specific circumstances and entities will need to exercise judgement in deciding how to meet the requirements of IAS 34.15. The Interim Financial Statements should be amended, amplified or abbreviated according to the importance of the area to the financial statements as a whole. Also, these Interim Financial Statements should not be used as a disclosure checklist to meet the requirements of IAS 34. Facts and circumstances will vary between entities and each entity should assess individually which information to disclose in their Interim Financial Statements.

**'These Interim Financial Statements should not be used as a disclosure checklist to meet the requirements of IAS 34. Facts and circumstances will vary between entities and each entity should assess individually which information to disclose in their Interim Financial Statements.'**

# Contents of Interim Financial Statements

Paragraph 8 of IAS 34 requires that condensed Interim Financial Statements contain at a minimum:

- a condensed statement of financial position
- a condensed statement or condensed statements of profit or loss and other comprehensive income
- a condensed statement of changes in equity
- a condensed statement of cash flows
- selected explanatory notes.

According to IAS 34.20, the Interim Financial Statements (condensed or complete) shall include:

- a statement of financial position as at the end of the current interim period and a comparative statement of financial position as at the end of the immediately preceding financial year either:
  - two separate statements, being a statement of profit or loss and a statement of other comprehensive income for the current interim period and cumulatively for the current financial year to date, with comparatives for the comparable interim periods (ie comparable interim period and financial year to date) or
  - a single statement of profit or loss and other comprehensive income for the current interim period, and cumulatively for the current financial year to date, with comparatives for the comparable interim periods (ie comparable interim period and financial year to date)

- a statement of changes in equity showing changes in equity cumulatively for the current financial year to date, with a comparative statement for the comparable year-to-date period of the immediately preceding financial year and
- a statement of cash flows for the current financial year to date, with a comparative statement for the comparable year-to-date period of the immediately preceding financial year.

Presentation of the interim statement of profit or loss and other comprehensive income either as a single statement or two separate statements should follow the presentation in the annual financial statements (IAS 34.8A). The Group presents a separate profit or loss statement and a separate statement of other comprehensive income in its other financial statements. In addition, the Group's profit or loss statement illustrates the 'nature of expense' format. Accordingly, these Interim Financial Statements follow the same approach.

The alternative methods of presenting a single statement of profit or loss and other comprehensive income and of presenting a profit or loss statement illustrating the 'function of expense format' are included as appendices to the 'IFRS Example Consolidated Financial Statements 2019'<sup>1</sup>.

IAS 1 'Presentation of Financial Statements' requires an additional statement of financial position at the start of the preceding period in certain circumstances (IAS 1.40A). IAS 34 does not require, and therefore these Interim Financial Statements do not include, such a statement of financial position.

Entities wishing to follow best practice may include a statement/statements of profit or loss and other comprehensive income, a statement of changes in equity and a statement of cash flows for the immediately preceding financial year. These Interim Financial Statements reflect this practice, with three periods for each of these statements and associated notes.

	Interim period	Last year end	Comparative interim period
Statement of financial position	Yes	Yes	Good practice
Statement of profit or loss and other comprehensive income	Yes (current and year-to-date)	Good practice	Yes (current and year-to-date)
Statement of changes in equity	Yes (year-to-date)	Good practice	Yes (year-to-date)
Statement of cash flows	Yes (year-to-date)	Good practice	Yes (year-to-date)

<sup>1</sup> In May 2019, the Grant Thornton International Ltd IFRS Team published 'IFRS Example Consolidated Financial Statements 2019', providing an example of a full set of annual IFRS financial statements.

#### Guidance note:

IAS 34.10 requires the interim statement to include, at a minimum, each of the headings and subtotals that were included in the most recent annual financial statements.

IAS 1.54 provides a list of the minimum items to be presented in the statement of financial position. Where relevant, references to IAS 1 and other IFRS requirements are included on the left-hand side of the statement of financial position. There may be situations where additional line items, headings and subtotals may also need to be included.

IAS 1.55 requires an entity to present additional items (including the disaggregation of the line items listed in IAS 1.54) in the statement of financial position when such presentation is relevant to an understanding of the entity's financial position.

IAS 1.55A requires additional subtotals presented in accordance with IAS 1.55 to be:

- comprised of line items made up of amounts recognised and measured in accordance with IFRS
- presented and labelled in a manner that makes the line items that constitute the subtotal clear and understandable
- consistent from period to period
- no more prominent than the subtotals and totals required in IFRS for the statement of financial position.

## Guidance note

IAS 34.10 requires the interim statement to include, at a minimum, each of the headings and subtotals that were included in the most recent annual financial statements. Consistent with the Group's annual financial statements, a separate statement of profit or loss and a separate statement of other comprehensive income are presented in these Interim Financial Statements.

IAS 1.82(a)-(ea) provides a list of the minimum items to be presented in the profit or loss section (when an entity presents a single statement of comprehensive income) or in the statement of profit or loss (when an entity presents separate statements of profit or loss and of other comprehensive income, as in these Interim Financial Statements).

There may be situations where additional line items, headings and subtotals need to be included. IAS 1.85 requires an entity to present such additional items (including the disaggregation of the line items listed in IAS 1.82) in the statement of profit or loss and other comprehensive income when such presentation is relevant to an understanding of the entity's financial performance.

IAS 1.85A requires any additional subtotals presented to be:

- comprised of line items made up of amounts recognised and measured in accordance with IFRS
- presented and labelled in a manner that makes the line items that constitute the subtotal clear and understandable
- consistent from period to period
- no more prominent than the subtotals and totals required in IFRS for the statement(s) presenting profit or loss and other comprehensive income.

IAS 1 allows an entity to use either the 'nature of expense' or the 'function of expense' format, whichever is reliable and more relevant (IAS 1.99). These Interim Financial Statements provide an example of the 'nature of expense' format.

IAS 34.11 requires the presentation of both basic and diluted earnings per share in the statement that presents the components of profit or loss when the entity is within the scope of IAS 33 'Earnings per Share'. Where an entity presents a separate statement of profit or loss and a separate statement of other comprehensive income, the basic and diluted earnings per share (EPS) figures should be presented in the statement of profit or loss (IAS 34.11A).

IAS 33 requires basic and diluted EPS disclosures in the annual financial statements for continuing operations and total operations, in the statement of profit and loss. EPS for discontinued operations are required to be shown either in the statement of profit or loss or in the notes (IAS 33.68).

IAS 34 does not specifically require disclosure of separate EPS figures for continuing and discontinued operations in the Interim Financial Statements. In our opinion, the minimum requirement is to disclose basic and diluted EPS for total operations. These Interim Financial Statements also include separate EPS figures for continuing and discontinued operations as a matter of good practice and for consistency with the annual financial statements. In our opinion, when such separate EPS figures are shown in the statement of profit or loss, EPS for total operations should also be shown in this statement.

## Guidance note

When an entity presents a separate statement of comprehensive income, IAS 1.82A requires an entity to present line items of other comprehensive income in the period, classified by nature and grouped into those that, in accordance with other IFRS:

- a) will not be reclassified subsequently to profit or loss; and
- b) will be reclassified subsequently to profit or loss when specific conditions are met.

IAS 1.82A further requires the presentation of line items for the share of the other comprehensive income of associates and joint ventures accounted for using the equity method, separated into the share of items that, in accordance with other IFRS:

- a) will not be reclassified subsequently to profit or loss; and
- b) will be reclassified subsequently to profit or loss when specific conditions are met.

IAS 1.87 precludes an entity from presenting any items of income or expense as extraordinary items, in the statement(s) presenting profit or loss and other comprehensive income, or in the notes.

According to IAS 1.90, an entity discloses the amount of income tax relating to each component of other comprehensive income, including reclassification adjustments, either in the statement of profit or loss and other comprehensive income or in the notes. In accordance with IAS 1.91(b), the Group, in its annual financial statements, presents components of other comprehensive income before tax with one amount shown for the aggregate amount of income tax relating to all components of other comprehensive income. The tax effects of each component of other comprehensive income are disclosed in the notes to the annual financial statements. When an entity selects alternative (b) of IAS 1.91, it shall allocate the tax between the items that might be reclassified subsequently to the profit or loss and those that will not be reclassified subsequently to the profit or loss.

#### Guidance note

IAS 34.10 requires the interim statement to include, at a minimum, each of the headings and subtotals that were included in the most recent annual financial statements while IAS 1.106 provides a list of the required items to be presented in the statement of changes in equity.

Entities have a choice to present the required reconciliations for each component of other comprehensive income either in the statement of changes in equity or in the notes to the financial statements (IAS 1.106(d)(ii) and IAS 1.106A). This Publication presents the reconciliations for each component of other comprehensive income in the notes to the financial statements. This reduces duplicated disclosures and presents more clearly the overall changes in equity.

## Guidance note

IAS 34.10 requires the interim statement to include, at a minimum, each of the headings and subtotals that were included in the most recent annual financial statements. Consistent with the Group's annual financial statements, the interim statement of cash flows is prepared using the indirect method in accordance with IAS 7.18(b). The statement of cash flows can also be prepared using the direct method (IAS 7.18(a)).

# Notes to the Condensed Consolidated Financial Statements

Illustrative Corporation Group  
For the period ended 30 June 2020  
(expressed in thousands of Euroland currency units,  
except per share amounts)

## Guidance note

Where an entity's interim financial report complies with IAS 34 that fact shall be disclosed (IAS 34.19). Where a condensed set of financial statements is prepared, the basis of preparation will need to refer to the fact that these Interim Financial Statements are 'condensed'. An interim financial report shall not be described as complying with IFRS unless it complies with all of the requirements of IFRS.

Interim financial reports are prepared assuming that users have access to the most recent annual financial report. Consequently, disclosures in the interim financial report need not duplicate previously reported information (IAS 34.6). IAS 34.16A sets out the information to be disclosed in the notes to the Interim Financial Statements, if not disclosed elsewhere in the interim financial report.

In addition, IAS 34.15 requires disclosure of events and transactions that are significant to an understanding of the changes in the financial position and performance of an entity since the end of the last annual reporting period. The guidance includes some examples of events and transactions which may require disclosure, if significant (IAS 34.15B).

These Interim Financial Statements present selected explanatory notes that are intended to assist users in understanding the results of the operations of the Group for the current interim period. As with any example, it does not envisage every possible transaction and therefore cannot be regarded as comprehensive. Also, depending on the circumstances, certain of these disclosures might be regarded either as voluntary or as necessary to meet the general requirements of IAS 34.

The notes to the Interim Financial Statements follow the format of the disclosures in the Group's annual financial statements in so far as these disclosures are required by IAS 34.

## 1. Nature of operations

The principal activities of Illustrative Corporation Ltd and subsidiaries (the Group) include selling of telecommunications hardware and software, related after-sales service, consulting, and the construction of telecommunications systems. These activities are grouped into the following service lines:

- **retail** – focusing on the sale of the Group’s proprietary hardware and software products and related customisation and integration services
- **after-sales service** – providing fixed-price maintenance of extended warranty agreements to the Group’s retail customers
- **consulting and outsourcing** – advising companies on telecommunications systems strategies and IT security, and providing IT outsourcing services including payroll and accounts payable transaction processing
- **construction** – providing customers with complete telecommunications systems solutions from design to development and installation.

**Guidance note:** The notes to the Interim Financial Statements only include disclosures relevant to the fictitious entity Illustrative Corporation Ltd and subsidiaries. IFRS may require different or additional disclosures in other situations. Disclosures should always be tailored to reflect an entity’s specific facts and circumstances.

## 2. General information, basis of preparation and statement of compliance with IFRS

IAS 34.3  
IAS 34.19

The Interim Financial Statements are for the six months ended 30 June 2020 and are presented in currency units (CU), which is the functional currency of the parent company. They have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’. They do not include all of the information required in annual financial statements in accordance with IFRS, and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2019.

Illustrative Corporation Ltd (Illustrative Corporation) is the Group’s ultimate parent company. It is a limited liability company incorporated and domiciled in Euroland. The address of its registered office and principal place of business is 149a Great Place, 40237 Greatville, Euroland. Illustrative Corporation’s shares are listed on the Greatstocks Stock Exchange.

The Interim Financial Statements have been approved for issue by the Board of Directors on 14 August 2020.

**Guidance note:** Other general information required in the local jurisdiction may be included here, for example, if the Interim Financial Statements are unaudited.

## 3. New Standards adopted at 1 January 2020

**Guidance note:** IAS 34 requires entities to explain significant events and transactions that have occurred in the interim period. The information to be provided will therefore depend on entity-specific circumstances and entities need to provide disclosures relevant to them in their interim financial statements. Entities will need to exercise their judgement in deciding how to best meet the requirements of IAS 34. We also encourage publicly-listed entities to enquire with their local regulatory authority to ascertain whether jurisdiction-specific requirements might apply.

### Other pronouncements

Some accounting pronouncements which have become effective from 1 January 2020 and have therefore been adopted do not have a significant impact on the Group's financial results or position.

**Guidance note:** Other Standards and amendments that are effective for the first time in 2020 (for entities with a 31 December 2020 year-end) and could be applicable to the Group are:

- Definition of Material
- Definition of a Business
- Interest Rate Benchmark Reform

These amendments do not have a significant impact on these Interim Financial Statements and therefore the disclosures have not been made. However, whilst they do not affect these Interim Financial Statements they will impact some entities. Entities should assess the impact of these new Standards on their financial statements based on their own facts and circumstances and make appropriate disclosures.

## 4. Significant accounting policies

IAS 34.28  
IAS 34.16A(a)

The Interim Financial Statements have been prepared in accordance with the accounting policies adopted in the Group's most recent annual financial statements for the year ended 31 December 2019.

**Guidance note:** IAS 34.28 requires the use of the discrete period approach. This requires that items of income and expenses should be recognised and measured on a basis consistent with that used in preparing the annual financial statements, and that no adjustments should be made for events expected to occur subsequent to the end of the interim period. IAS 34.28 notes that the frequency of an entity's reporting should not affect its annual results. There are however some situations where annual reporting can be altered. One example is impairment of goodwill. IFRIC 10 'Interim Financial Reporting and Impairment' (IFRIC 10) notes that an entity shall not reverse an impairment loss recognised in a previous interim period even if the impairment loss would not have been recognised had the impairment assessment been made only at the end of the annual reporting period (IFRIC 10.8).

## 5. Estimates

IAS 34.41  
IAS 34.16A(d)

When preparing the Interim Financial Statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

IAS 34.28  
IAS 34.B12

The judgements, estimates and assumptions applied in the Interim Financial Statements, including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual financial statements for the year ended 31 December 2019. The only exceptions are the estimate of income tax liabilities which is determined in the Interim Financial Statements using the estimated average annual effective income tax rate applied to the pre-tax income of the interim period.

## 6. Significant events and transactions

IAS 34.15  
IAS 34.15C

Management believes that the Group is well positioned to cope with a downturn in the economy. Factors contributing to the Group's strong position are:

- no significant new orders. In addition, the Group has several long-term contracts with a number of its existing customers

- the Group does not expect to need additional borrowing facilities in the next 12 months as a result of its significant financial resources, existing facilities and strong liquidity reserves. The Group has significant headroom to comply with its debt covenants
- the Group's major customers have not experienced financial difficulties. Credit quality of trade receivables as at 30 June 2020 is considered to be good.

Overall, the Group is in a strong position and has sufficient capital and liquidity to service its operating activities and debt. The Group's objectives and policies for managing capital, credit risk and liquidity risk are described in its recent annual financial statements.

## 7. Business Combinations

IAS 34.16A(i)  
IFRS 3.B64(a)-(d)

On 5 April 2020, the Group acquired 100% of the issued share capital and voting rights of Sysmagic Limited (Sysmagic), a company based in the United Kingdom that operates within the service segment. The objective of the acquisition is to further increase the Group's market share in providing customised IT and telecommunication systems services.

The details of the business combination are as follows:

	<b>Fair value of consideration transferred</b>	
	Amount settled in cash	18,500
	<b>Recognised amounts of identifiable net assets</b>	
	Property, plant and equipment	5,818
	Intangible assets	8,585

	<b>Total current liabilities</b>	<b>(6,800)</b>
	<b>Identifiable net assets</b>	<b>15,998</b>
	<b>Goodwill on acquisition</b>	<b>2,502</b>
IAS 7.40(b)	Consideration transferred settled in cash	18,500
IAS 7.40(c)	Cash and cash equivalents acquired	(324)
IAS 7.42	<b>Net cash outflow on acquisition</b>	<b>18,176</b>
	Acquisition costs charged to expenses	304
	<b>Net cash paid relating to the acquisition</b>	<b>18,480</b>

## Notes to the condensed consolidated financial statements

For the period ended 30 June 2020 (expressed in thousands of Euroland currency units, except per share amounts)

### Consideration transferred

IFRS 3.B64(m) Acquisition-related costs amounting to CU 304 are not included as part of consideration transferred and have been recognised as an expense in the consolidated statement of profit or loss, as part of other expenses.

### Identifiable net assets

IFRS 3.B67(a) The fair values of the identifiable intangible assets have been determined provisionally at 30 June 2020, because the acquisition was completed late in the period. The Group is currently obtaining the information necessary to finalise its valuation.

IFRS 3.B64(h)(i-iii) The fair value of the trade and other receivables acquired as part of the business combination amounted to CU 4,449 with a gross contractual amount of CU 4,569. As of the acquisition date, the Group's best estimate of the contractual cash flows not expected to be collected amounted to CU 120.

### Goodwill

IFRS 3.B64(e)  
IAS 36.133  
IFRS 3.B64(k) The goodwill that arose on the combination can be attributed to the synergies expected to be derived from the combination and the value of the workforce of Sysmagic which cannot be recognised as an intangible asset. Goodwill has been provisionally allocated to cash-generating units at 30 June 2020 and is attributable to the service segment. The goodwill that arose from this business combination is not expected to be deductible for tax purposes.

### Sysmagic's contribution to the Group results

IFRS 3.B64(q)(i-ii) From the date of the acquisition to 30 June 2020, Sysmagic contributed CU 12,232 and CU 1,954 to the Group's revenues and profits, respectively. Had the acquisition occurred on 1 January 2020, the Group's revenue for the period to 30 June 2020 would have been CU 128,386 and the Group's profit for the period would have been CU 15,726.

## 8. Revenue

IFRS 15.116 For the first six months of 2020, revenue includes CU 1,359 (first six months of 2019: CU 1,267) from the contract liability balance at the beginning of the period, and CU 67 (first six months of 2019: CU 63) from performance obligations satisfied (or partially satisfied) in previous periods due to changes in transaction price.

**Guidance note:** IAS 34 requires entities to explain the significant events and transactions that have occurred in the interim period. The information to be provided will therefore depend on entity-specific circumstances and not all entities may need to provide the detailed disclosures described by IFRS 15 (shown here) in their interim financial statements. As these Example Interim Consolidated Financial Statements are provided for illustrative purposes only, we have included these disclosures. Other entities will need to exercise their judgement in deciding how to best meet the requirements of IAS 34.

As the Group does not enter into contracts with its customers where, once performance has occurred, the Group's right to consideration is dependent on anything other than the passage of time, the Group does not presently have any contract assets.

For purposes of these Interim Financial Statements, it is assumed that changes to the Group's contract liabilities (ie deferred revenue) are attributable solely to the satisfaction of performance obligations. For other entities, where contract liability balances are affected by other significant factors, IFRS 15.118 requires these changes to be explained. For example, changes due to business combinations or a change in the time frame required for a performance obligation to be satisfied.

The Group's revenue disaggregated by primary geographical markets is as follows:

## 9. Segment reporting

IAS 34.16A(g) The Group has three operating segments: consulting, service and retail. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services. These operating segments are monitored by the Group's chief operating decision maker and strategic decisions are made on the basis of adjusted segment reporting results.

Each of these operating segments is managed separately as each requires different technologies, marketing approaches and other resources. All inter-segment transfers are carried out at arm's length prices based on prices charged to unrelated customers in stand-alone sales of identical goods or services.

In addition, two minor operating segments are combined below under other segments. The main sources of revenue for this segment is the sale and disposal of used IT equipment that the Group collects from its customers.

IAS 34.16A(g)(v) During the six month period to 30 June 2020, there have been no changes from prior periods in the measurement methods used to determine operating segments and reported segment profit or loss.

IAS 34.16A(g)(i-iv) The revenues and profit generated by each of the Group's operating segments and segment assets and liabilities are summarised as follows:

## 10. Seasonal fluctuations

IAS 34.16A(b)

The demand for maintenance and installation of IT and telecommunication systems and equipment (part of the consulting and service segments) is subject to seasonal fluctuations. Historically, peak demand is in the second half of each year. Revenues for maintenance and installation for the six months ended 30 June 2020 represented 66% (six months period to 30 June 2019: 43%) of the annual level of these revenues for the year ended 31 December 2019.

The percentage of the first six months revenues in 2020 is higher than 2019 due to the effect of an additional three months revenues contributed by a new subsidiary acquired in 2020 (see Note 6). Excluding these items, the revenues for the six months ended 30 June 2020 represent approximately 45% of the annual level of maintenance and installation revenues for the year ended 31 December 2019.

## 11. Goodwill

**Guidance note:** In addition to the requirement of IAS 34.16A(c) to disclose the nature and amount of items affecting assets that are unusual because of their nature, size or incidence, this disclosure is also part of the required disclosure under IFRS 3 'Business Combinations' for the business combination that occurred in the current interim period.

IAS 34.16A(c)

The following table shows the movements in goodwill:

	6 months to 30 Jun 2020	6 months to 30 Jun 2019	Year to 31 Dec 2019

## 12. Other intangible assets

**Guidance note:** In these Interim Financial Statements, this information is considered a necessary disclosure because of the significant additions and the impact of the business combination. Depending on the circumstances, this type of disclosure might be regarded either as voluntary or as necessary to meet the requirements of IAS 34.15C and IAS 34.16A(c). Other examples of events and transactions where IAS 34 requires disclosures are included in IAS 34.15B.

#### Lease payments not recognised as a liability

The group has elected not to recognise a lease liability for short term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. In addition, certain variable lease payments are not permitted to be recognised as lease liabilities and are expensed as incurred.

The expense relating to payments not included in the measurement of a lease liability is as follows:

IFRS 16.54

IFRS 16.53(c)

IFRS 16.53(d)

IFRS.16.53(e)

**Guidance note:** These are not all the disclosure requirements of IFRS 16. Disclosures have been selected for these Interim Financial Statements in order to understand the entity's leasing activities and meet the requirements of IAS 34. The information provided will therefore depend on entity-specific circumstances and not all entities need to provide the same disclosures in their interim financial statements. Entities will need to exercise their judgement in deciding how to best meet the requirements of IAS 34.

## 15. Disposal groups classified as held for sale and discontinued operations

IAS 34.16A(i) The amounts presented in the statement of profit or loss under discontinued operations relate to Highstreet Ltd. Most of its assets were sold on 30 September 2019. The remaining storage facility was sold in February 2020 and a gain of CU 96 is presented as discontinued operations for the period ended 30 June 2020.

## 16. Earnings per share

**Guidance note:** In these Interim Financial Statements, this information is considered a necessary disclosure because of the significant additions and the impact of the business combination. Depending on the circumstances, this type of disclosure might be regarded either as voluntary or as necessary to meet the requirements of IAS 34.15C and IAS 34.16A(c). Other examples of events and transactions where IAS 34 requires disclosures are included in IAS 34.15B.

IAS 33.70(a) Both the basic and diluted earnings per share have been calculated using the profit attributable to shareholders of the parent company (Illustrative Corporation) as the numerator, ie no adjustments to profits were necessary during the six month periods to 30 June 2020 and 30 June 2019 or the year ended 31 December 2019.

IAS 33.70(b) The weighted average number of shares for the purposes of the calculation of diluted earnings per share can be reconciled to the weighted average number of ordinary shares used in the calculation of basic earnings per share as follows:

Amounts in thousand shares:	30 Jun 2020	30 Jun 2019	31 Dec 2019
Weighted average number of shares used in basic earnings per share	14,970	12,270	12,520
Shares deemed to be issued for no consideration in respect of share-based payments	14	16	17
<b>Weighted average number of shares used in diluted earnings per share</b>	<b>14,984</b>	<b>12,286</b>	<b>12,537</b>

## 17. Share capital

IAS 34.16A(e) During the six month period to 30 June 2020, 350,000 shares were issued to satisfy share options previously granted under the Group's employee share option scheme. During this period, the weighted average share price at the date of exercise was CU 11.97 (six month period to 30 June 2019: CU 10.50; December 2019: CU 11.19).

Illustrative Corporation also issued 1,700,000 shares on 1 April 2020 for cash, corresponding to 13.9% of total shares issued. Each share has the same right to receive dividends and the repayment of capital and represents one vote at the shareholders' meeting of Illustrative Corporation.

## 18. Dividends

IAS 34.16A(f) During the six month period to 30 June 2020 Illustrative Corporation paid dividends of CU 6,855 to its equity shareholders (six month period to 30 June 2019: CU 3,000; December 2019: CU 3,000). This represents a payment of CU 0.50 per share (six month period to 30 June 2019: CU 0.25; December 2019: CU 0.25). No dividends were paid on new shares issued in 2019 pursuant to the Group's share-based payment scheme.

## 19. Other components of equity

**Guidance note:** This type of disclosure is not specifically required by IAS 34. However, in these Interim Financial Statements, this information is considered necessary due to the change in the presentation of the reconciliations of each item of comprehensive income.

## 20. Provisions

IAS 34.15B(c)

A restructuring provision was recognised by the Group in its annual financial statements as at 31 December 2019 in relation to the 'Phoenix Programme', amounting to CU 724. The estimate of the restructuring provision was reduced by CU 600 at 30 June 2020 due to a positive outcome of claims brought against the Group by former employees. The Group's management still expects to settle the remaining termination remuneration in 2020, predominantly through out of court settlements.

The remaining balance of CU 491 is made up of other provisions relating to legal and other claims by customers, such as warranties for which customers are covered for the cost of repairs.

## 21. Contingent liabilities

IAS 34.15B(m)

During the prior year, various warranty and legal claims were brought against the Group. At 31 December 2019, management considered these claims to be unjustified and no provision had been recognised. During the current period, the counterparties withdrew their claims against the Group.

## 23. Fair value measurement of financial instruments

**Guidance note:** IAS 34 requires that Interim Financial Statements include certain of the disclosures about fair value of financial instruments set out in IFRS 13 'Fair Value Measurement' and IFRS 7 'Financial Instruments: Disclosures'. These disclosures include the classification of fair values within a three-level hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities
- **Level 2:** inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- **Level 3:** unobservable inputs for the asset or liability.

**Notes to the condensed consolidated financial statements**

For the period ended 30 June 2020 (expressed in thousands of Euroland currency units, except per share amounts)

IAS 34.16A(j) The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis at 30 June 2020, 30 June 2019 and 31 December 2019.

IFRS 13.93(c) There were no transfers between Level 1 and Level 2 during the six month period to 30 June 2020 or the year to 31 December 2019.

#### Measurement of fair value

IFRS 13.93(d)  
IFRS 13.93(g) The Group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximising the use of market-based information. The finance team reports directly to the chief financial officer (CFO) and to the audit committee. Valuation processes and fair value changes are discussed among the audit committee and the valuation team at least every six months, in line with the Group's reporting dates. The valuation techniques used for instruments categorised in Levels 2 and 3 are described below:

#### Foreign currency forward contracts (Level 2)

The Group's foreign currency forward contracts are not traded in active markets. These contracts have been fair valued using observable forward exchange rates and interest rates corresponding to the maturity of the contract. The effects of non-observable inputs are not significant for foreign currency forward contracts.

#### Investment in XY Ltd (Level 3)

The fair value of this investment was determined based on an appropriate equity pricing model that takes into account the investee's dividends policy and its historical and expected future performance and based on an appropriate growth factor for a similar listed entity and a risk adjusted discount rate.

#### Contingent consideration (Level 3)

IFRS 13.93(d)  
IFRS 13.93(g) The fair value of the contingent consideration, related to the acquisition of a subsidiary in 2019, is estimated using a present value technique which discounts the management's estimate of the probability that the contract's target level will be achieved.

The probability-weighted cash outflows before discounting are CU 655 at 30 June 2020, 30 June 2019 and 31 December 2019. It reflects a management's estimate of a 50% probability that the contract's target level will be achieved.

The discount rate used at 30 June 2020, 30 June 2019 and 31 December 2019 is 4.4%, 4.6% and 4.4%, respectively. These discount rates are based on the Group's estimated incremental borrowing rate for unsecured liabilities at each reporting date, and therefore reflect the Group's credit position.

The significant input for the fair value estimate is the management's estimate of the probability that the contract's target level will be achieved. The following table provides information about the sensitivity of the fair value measurement to changes in that input:

IFRS 13.93(h)

Description	Significant unobservable input	Estimate of the input	Sensitivity of the fair value measurement to input
Contingent consideration	Probability of meeting target	50%	An increase to 60% (decrease to 40%) would increase (decrease) fair value by CU 125
Investment in XY Ltd	Earnings multiple	5%	An increase of the growth factor by 100 basis points and a lower discount rate of 100 basis points would increase the fair value by CU 65. Lowering the growth factor by 100 basis points and increasing the discount factor by 100 basis points would decrease fair value by CU 85.
Investment in XY Ltd	Risk adjusted discount rate	15%	

There are no major interrelationships between the significant input (management's estimate of the probability that the contract's target level will be achieved) and the unobservable inputs.

<sup>a</sup> These financial assets are included in "Other long-term financial assets". The line item also includes listed securities and the investment in XY Ltd which are carried at fair value at 30 June 2020, 30 June 2019 and 31 December 2019 of CU 1,167, CU 1,194 and CU 1,173 (see above), respectively.

- IFRS 7.29 The carrying amount of the following financial assets and liabilities is considered a reasonable approximation of fair value:
- trade and other receivables
  - cash and cash equivalents
  - trade and other payables.

## 24. Events after the reporting date

**Guidance note:** IAS 34.16A(h) requires disclosure of events after the interim period that have not been reflected in the Interim Financial Statements. IAS 34 does not specify the level of detail required. This example illustrates the disclosures required by IFRS 3 for combinations arising after the reporting date. Other approaches may also be acceptable.

- IAS 34.16A(h)  
IFRS 3.B66  
IFRS 3.B64(a-d) On 29 July 2020 the Group acquired 100% of the issued share capital of Servers.com Limited (Servers.com), a company based in Euroland. The objective of the acquisition is to expand the operations of the Group's retail segment.

- IFRS 3.B64(f)(i, iii, iv)  
IFRS 3.B64(g)(ii) The acquisition was settled in cash and by issuing 500,000 shares of Illustrative Corporation. The purchase agreement also provides for an additional consideration of CU 1,500 payable if the average profits of Servers.com for 2020 and 2021 exceeds a target level agreed by both parties. Any additional consideration will be paid on 30 July 2022.

- IFRS 3.B64(f) The fair value of the consideration transferred is as follows:

IFRS 3.B64(iv)	Fair value of equity shares issued	6,250
IFRS 3.B64(j)	Amount settled in cash	7,000
IFRS 3.B64(g)(i)	Fair value of contingent consideration	680
		<b>13,930</b>

- IFRS 3.B64(f)(iv) The fair value of the equity shares issued was based on the market value of the Group's traded equity shares at the date of acquisition.

**Guidance note:** The determination of the acquisition-date fair value of the contingent consideration should consider the expected outcome of the contingency. This example illustrates one possible approach to estimating the fair value of the contingent consideration.

- IFRS 3.B64(g)(iii) The fair value of the contingent consideration represents the Group's estimate of the probable cash outflows (ie reflecting management's estimate of a 50% probability that the targets will be achieved) discounted using an interest rate of 5%.

- IFRS 3.B66 The Group is in the process of determining the fair values of the acquired assets and assumed liabilities of Servers.com. The valuation is expected to be completed before year-end.
