

2021 Federal Budget: Ottawa in Recovery and Election Mode

Tax Bulletin

Federal Budget, April 19, 2021

This first budget from the Canada's Finance Minister of the Liberal minority government is part of an economic stimulus ... and green plan! With a general election potentially looming, the Minister of Finance, the Honourable Chrystia Freeland, is keeping the floodgates of economic aid open with a three-year, \$100 billion stimulus plan, but without any short-term measures to put public finances in order.

This translates into several important investments to the benefit of numerous taxpayers, especially SMEs, the country's economic driving force.

Recovery stimulus: A few key measures

Emergency Business Support

Measures for businesses include extending the Canada Emergency Wage Subsidy, Canada Emergency Rent Subsidy and Lockdown Support to September 25, 2021. In addition to the previously announced extension of the Canada Emergency Business Account, these extensions represent \$12.1B in additional support.

Recovery Hiring Program

Furthermore, the government is creating a Recovery Hiring Program which will run from June to November 2021 and provide \$595M to make it easier for businesses to hire back laid-off workers or to bring on new ones.

Canada Digital Adoption Program

The federal government is injecting \$4B to help some 160,000 Canadian SMEs invest in new technologies and innovation. The Canada Digital Adoption Program will also provide businesses with the advice and help they need to get the most out of these new technologies. The program will make it possible to train 28,000 Canadians – a Canadian technology corps – and send them out to work with SMEs.

Zero Net Accelerator

In terms of green recovery, the budget is proposing an unprecedented \$5G investment over seven years, starting in 2021-2022, in Net Zero Accelerator. This support is on top of the \$3B announced by the government to encourage even more businesses to invest in reducing their greenhouse gas emissions.

Some tax measures

With respect to the capital cost allowance, the budget is authorizing the immediate expensing of up to \$1.5M of eligible investments by Canadian-controlled private corporations for each of the next three years. These significant deductions will help 325,000 businesses make essential investments and achieve overall savings of \$2.2B in the next five years.

Tax on digital services and luxury goods

The budget is also proposing to introduce a Digital Services Tax to ensure the services pay their fair share. This 3% tax would apply on revenue from digital services that rely on Canadian data and content. This measure would make it possible to raise \$3.4B in revenue over five years beginning this year.

A new luxury tax is introduced. The tax would apply to the purchase of automobiles and private aircraft worth more than \$100,000 and pleasure boats worth more than \$250,000. This should bring in tax revenue of \$604M over the next five years.

Public finances: Situation and prospects

The 2020-2021 deficit is now \$354.6B, whereas it was expected to be \$154.7B by the end of 2021-2022. The budget is not expected to be balanced in the medium term and the deficit for fiscal 2025-2026 could be \$30.7B, that is slightly less than the pre-pandemic deficit of \$39.4B in March 2020. The federal debt would rise from \$1,079B to \$1,411B by 2026.

Raymond Chabot Grant Thornton had recommended in its [pre-budget recommendations](#), bold tax measures that would apply temporarily to increase the collection of unrealized taxes at a lower rate, thereby enabling the government to collect additional income on the near future, without increasing Canadian taxpayers' taxes. The funds could be allocated to reducing the pandemic debt.

For more information on the tax measures announced in the 2021 federal budget, please read the following pages.

Mandatory disclosure rules		
Expansion of mandatory disclosure of an avoidance transaction	<ul style="list-style-type: none"> ▪ Mandatory disclosure of an avoidance transaction bearing at least two of the following three hallmarks: <ul style="list-style-type: none"> – Fees of the advisor/promoter conditional on, or related to, the amount of the tax benefit from transaction or its success – Transaction subject to a confidentiality clause – Transaction with a contractual protection 	<ul style="list-style-type: none"> ▪ Mandatory disclosure now applicable to a transaction bearing only one of the three hallmarks ▪ Avoidance transaction extended under these rules to include any transaction where one of the main purposes is to obtain a tax benefit
New “notifiable transaction” disclosure requirement	<ul style="list-style-type: none"> ▪ Mandatory disclosure of specified transactions for Quebec tax purposes ▪ No equivalent federal mandatory disclosure 	<ul style="list-style-type: none"> ▪ Proposed introduction of a mandatory disclosure applicable to taxpayers who implement a “notifiable transaction” and to promoters and advisors who offer such a scheme ▪ Notifiable transaction: transaction whose facts patterns and outcomes are essentially similar to transactions described by the minister as notifiable transactions (list and details to come)
New requirement to report uncertain tax treatments	<ul style="list-style-type: none"> ▪ None 	<ul style="list-style-type: none"> ▪ Requirement for corporations to report uncertain tax treatments where: <ul style="list-style-type: none"> – The corporation (resident or non-resident) is required to file a tax return in Canada – Corporation has at least \$50M in assets (threshold applicable to each corporation) – The corporation, or a related corporation, has audited financial statements prepared in accordance with IFRS or other country-specific GAAP relevant for domestic public companies (e.g., U.S. GAAP). – Uncertainty is reflected in those audited financial statements (i.e., the entity concluded it is not probable that the tax authority will accept an uncertain tax treatment and thus, it is probable that the entity will receive or pay amounts relating to the uncertain tax treatment).
Proposed effective date of the proposed measures	<ul style="list-style-type: none"> ▪ N/A 	<ul style="list-style-type: none"> ▪ Entry into force scheduled for 2022, after the end of the current consultation on these measures

Measures to counter hybrid mismatch arrangements in international tax

New rules to address hybrid arrangements

Timing

- Existence of certain rules in Canada that can be used to fight against hybrid mismatch arrangements, that is cross-border tax avoidance structures that exploit differences in the income tax treatment of business entities or financial instruments under the laws of two or more countries to produce mismatches in tax results
- N/A
- Proposed introduction of a plan to address:
 - Schemes that produce mismatches due to different legislation in various jurisdictions (double deduction, deduction and non-inclusion in the other jurisdiction)
 - Imported mismatches (deduction mechanisms in one country without inclusion in the other)
- Rules to neutralize mismatches through the:
 - Non-deductibility of a payment in Canada or conversely
 - Inclusion in income (if it is a dividend, it could be non-deductible)
- Publication of proposed legislation for comment expected in 2021 for application as of July 1, 2022 for phase 1 (rules to neutralize the effect of inclusion/non-inclusion)
- Publication of proposed legislation for comment expected after 2021 for application in 2023 at the earliest for phase 2 (rules regarding other types of mismatches)

INDIVIDUALS

	CURRENT MEASURES	PROPOSED MEASURES
Disability Tax Credit		
Expansion of eligibility for the credit <i>Mental functions necessary for everyday life</i> <i>Life-sustaining therapy</i>	<ul style="list-style-type: none"> ▪ Eligibility for the credit is based on the taxpayer's limitations, in particular, regarding the mental functions of everyday life ▪ Some life-sustaining therapy qualifies for the credit ▪ Requirement for the therapy to be administered at least three times a week 	<ul style="list-style-type: none"> ▪ Expansion of the mental functions considered to be necessary for everyday life ▪ Applicable as of 2021 ▪ Expansion of activities for the purposes of life-sustaining therapy ▪ Reduction of required frequency for the administration of therapy to two times a week ▪ Applicable as of 2021
Canada Workers Benefit (CWB)		
Enhancement of the CWB	<ul style="list-style-type: none"> ▪ Refundable tax credit calculated on eligible earned income: <ul style="list-style-type: none"> – Rate: 26% ▪ Phase-out threshold: <ul style="list-style-type: none"> – Single individuals without dependants: \$13,194 – Families: \$17,522 – Phase-out rate 12% ▪ Supplement available to individuals who are eligible for the Disability Tax Credit 	<ul style="list-style-type: none"> ▪ Credit rate increased to 27% ▪ Phase-out threshold increased to: <ul style="list-style-type: none"> – Single individuals without dependants: \$22,944 – Families: \$26,177 – Phase-out rate: 15% ▪ Corresponding increase to the disability supplement phase-out thresholds ▪ Introduction of a "second earner exemption" to reduce the effect of phase-out based on income, for couples where both spouses benefit from the CWB
Northern residents' deductions		
Deduction broadened	<ul style="list-style-type: none"> ▪ Deduction for individuals who live in prescribed northern areas for at least six consecutive months, calculated using two components: <ul style="list-style-type: none"> – Travel – Residence 	<ul style="list-style-type: none"> ▪ Expansion of the travel component to provide for the deduction of a maximum amount equivalent to one of the following amounts, for the taxpayer and eligible family members: <ul style="list-style-type: none"> – The amount of employer-provided travel benefits the taxpayer received in respect of travel by that individual – A \$1,200 standard amount that may be allocated across eligible trips taken by that individual ▪ Certain limits and conditions apply ▪ Applicable as of 2021
